## Dutch & English breakfast until 12.00h.

The English breakfast is world famous, especially because of what the average Englishman eats on an empty stomach. Our tasting room has exactly that typical English 'breakfast'. All ingredients are imported from England and everything is hot from the English breakfast. This is in contrast to the Dutch breakfast, which is much richer in fibre and therefore also healthier. In the English breakfast you have 3 choices, while the Dutch breakfast is just... a Dutch breakfast.
